

Please do not change the telephone privacy act. I have obtained such peace of mind since I no longer receive 10-15 calls per day from telemarketers! I used to be so apprehensive of picking up my phone in the event I had to deal with a rude telemarketer. I knew whatever they were selling or surveying...I was NOT interested. If I have to go back to that...I'll go NUTS! Please...do NOT change our privacy law! We, as Americans, living in a free country, deserve to choose who uses our phone number. We do NOT want people we don't even know calling us at any hour of the day or night to sell us something we don't even want. We pay our taxes, we pay for the right to use our phones...these telemarketers have NO right to call us if don't want them to. Why do you think so many of us have Caller-ID and Privacy Manager? So we can screen out as many of those calls as we can. That costs us even more money. PLEASE...do NOT change our telephone privacy act. I got sooo tired of getting calls from rude people who think I'm doing nothing in my home but waiting for their calls!

Thank you!

Lina Cricelli
